

modulesediment::getcohesivemass

```
graph LR; A[modulesediment::getcohesivemass] --> B[modulesediment::ready]; B --> C[modulesediment::locateobjsediment];
```

The diagram illustrates a linear sequence of three modules. The first module, 'modulesediment::getcohesivemass', is highlighted with a gray background. It is connected by a blue arrow to the second module, 'modulesediment::ready', which has a white background. This second module is then connected by another blue arrow to the third module, 'modulesediment::locateobjsediment', also with a white background. All three modules are contained within rectangular boxes with black borders.

modulesediment::ready

modulesediment::locateobjsediment
