

modulewaves::setwaveswind

```
graph LR; A[modulewaves::setwaveswind] --> B[modulewaves::ready]; B --> C[modulewaves::locateobjwaves];
```

The diagram illustrates a three-step process flow. It begins with a gray rectangular box containing the text 'modulewaves::setwaveswind'. A dark blue arrow points from this box to a white rectangular box containing 'modulewaves::ready'. Another dark blue arrow points from the 'ready' box to a final white rectangular box containing 'modulewaves::locateobjwaves'. All boxes have a black border, and the arrows are solid dark blue lines.

modulewaves::ready
